Allura Fiber Cement

Pinnacle

Solid Colour Series

Strong relationships with coating and substrate manufacturers ensure you receive a high quality product

Various colours to suit your needs.

Pinnacle Solid Colour Series is available pre-finished in multiple designer colours, as well as custom colours upon request

A product that is built to last.

Allura products endure rigorous testing in accordance with ASTM C1186 requirements. These standards include a stringent review of flexural strength, moisture movement, frost resistance, traverse loading and water absorption. The 50-year limited substrate warranty provided by Allura is partnered with a 30-year coating warranty, including a 15-year labour component.
