7.5 Roughsawn Shake

One-of-a-kind

Grayne's 7.5" Red Cedar Shingle offers the charm of natural cedar with none of the maintenance. The shingle's graining patterns create natural depth and shadows for a striking on-house appearance. Grayne's sharp, crisp edges and ual offset installation provide the most authentic look possible, from up close and from the curb.

Perfect Match

What makes natural shingles so striking is the colour variance found in the woodgrain. That's why Grayne offers six warm and welcoming cedar colours that have light and dark points like cedar found in nature. Ranging from stained looks to aged cedar, it's easy to find the perfect match for any project.

Frequently asked question:

How many different shingles does Grayne have? Grayne has created a panelized system consisting of 72 unique woodgrains on 8 different panel configurations.

What is Grayne's warranty? Grayne has a 50/5 year limited warranty, 50 years of manufacturing defects and 5 years on labor.

What fire rating does Grayne achieve? Grayne achieves a class 1A Fire Rating (passes Flame Spread and Smoke).
